If you count cash, then a Sigma 170 can help you!

The Cashmaster Sigma 170 is a fast and accurate count-by-weight 'cash-counting' machine specifically designed to allow your business to save time, money and improve accountability.

Designed for single till use, the Cashmaster Sigma 170 will assist any business that handles cash. It is an invaluable and easy-to-use device that not only counts cash quickly, but also allows you to prepare floats, prepare banking and conduct instant checks and audits in a fraction of the time. An integrated printer can be attached within the same footprint, to provide an accurate reading of your till.

Our weight-based 'cash-counting' solutions can help your business work more efficiently and are proven to prevent cash loss or shrinkage. Counting by weight is considerably faster and easier than counting by hand and highly accurate. Additionally, our products can count notes, coins, vouchers and instantly reconcile takings allowing you to conduct on-the-spot audit checks.
